ENVISION®
Your World

$$E = MC^2$$

Envision = Management Command & Control

Envision energizes Business Process Management, Enterprise Architecture, Strategic Planning, Risk Analysis, Requirements Management, Systems Architecture, and any other Information or Knowledge Management need.

**Need an Einstein
to energize your organization?**

Not with Envision!

Energize Your Enterprise

See Why Leading analysts and consultants choose Envision...

√ **Intuitive User Interface**

You don't need to be an Einstein to see the big picture! Tired of shuffling endless reports, documents, diagrams, graphs and spreadsheets looking for the right information?
Envision is Smart! Existing graphics, documents, spreadsheets and DB tables can be literally dragged & dropped into **Envision** giving you with an intuitive view of your enterprise.

√ **Adaptable**

Create your own custom enterprise models and link them seamlessly together. Changing needs and new insights can be easily incorporated into **Envision** at any time.

√ **Leverage Your Knowledge**

Envision's repository leverages all types of information and knowledge, allowing extensive analysis without any programming.
Envision offers an unlimited number of views and perspectives of an enterprise. Its *object oriented* repository organizes knowledge and eliminates inconsistencies in various stakeholder views.

√ **Powerful Reporting Options**

Envision organizes complex business knowledge & systems in a visual, easy to understand manner. *Consistent data* makes it easier to track business goals/objectives against existing business practices and procedures. Users can easily link to outside applications [E.g. project management tools, spreadsheets, and databases.] **Envision** offers several new and unique tools for analyzing and reporting on your business.

√ **True Multi-user Support**

Envision supports workgroup environments, yet maintains the integrity of the repository information at all times. No merging of files or manual comparing of data is required. **Envision** handles it all seamlessly.

√ **Dynamic Linking**

Encapsulate all your development and office productivity tools under a common interface. Users can double click on any object in an **Envision** model

**Energize Your Enterprise
